**LETTER OF RECOMMENDATION**

I have known **Mr. NANNAPANENI SASANK** for the past three years. During his time, I handled "Hydraulic Machines" and "Fuel and IC Engines Lab" courses. I have observed him very closely in my lecture sessions & must mention his performance with other professors too. I think some of my observations are worth mentioning while I pen down my letter recommending his to Post Graduation in your university.

From my observations **Mr. NANNAPANENI SASANK** his concepts and goals. I can confidently vouch for his sincerity, integrity and soundness of his judgement. His analytical skills are very good and he is excellent at communicating his ideas. His enthusiasm to learn new topics and gain insight into the subject emphasizes his highly ambitious nature and incessant zeal to make innovative advances. He was under my counselling from the past two years.

He has also been enthusiastic in extracurricular activities. He had been an efficient organizer of annual fest of our college and even the fresher well celebrations for consecutive years. Along with that he had been a volunteer for Engineers Day program in our college and he organized many events. At a personal level, he is a student of high moral and ethical standards. He maintains a cheerful demeanor with the faculty and his co-students. I am sure that he will put forth all efforts into any task that he confronts.

I view him as a student who has the right attitude and aptitude to further his studies in a highly research oriented ambience. Given the opportunity, I believe that he will not only benefit from the Master's program at your university, but also his endurance will contribute significantly to the post graduate program at your institution. I strongly recommend **Mr. NANNAPANENI SASANK** for an admission into your university with possible financial assistantship and I wish him good for his future.

*G. Jamuna Rani*
