LETTER OF RECOMMENDATION

I am writing to you in support of **Mr. NANNAPANENI SASANK** and his desire to attend your university for doing Master's program. I have assessed him in subjects "Kinematics of Machines", "Design of Machine Elements" and "Design of Transmission Elements". I have also supervised his laboratory course "Design and Metrology Lab". I think some of my observations are worth mentioning while I pen down my letter recommending him to study at your university.

To begin with, he is an industrious and perky class participant and brings together an engineer's analytical approach, a keen grasp of basic facts. He is a self-starter and likes to go beyond the theoretical purview, to the practical application of subjects. Besides the stipulated work in class, he has taken up several other initiatives, participated in many training programs and extracurricular activities. His commitment and sincerity towards his studies and extracurricular activities impressed me immensely.

He has a pragmatic approach to solving problems, which clearly displays his innovative and experimental skills, supported by a sound understanding of theoretical principles. **Mr. NANNAPANENI SASANK's** personality for which he is liked by one and all in the department, with his friendly disposition, he can fit into any team.

He is an ambitious and career-oriented person who believes in reality and completing the work meticulously. He keeps himself updated on the latest developments and goes through which was evident from the technical discussions and interviews had with him. I am confident that he will continue to display the same commitment and diligence. Hence, strongly recommend him for admission into your university.

[Dr. MANGALAGIRI BALAJI]
ASSOCIATE PROFESSOR
Department of Mechanical Engineering
V.R Siddhartha Engg. College
